## SYNOPSIS OF COAL MINING REGULATIONS

Section 1. The rights of the Dominion in the lands in the Province of Alberta, the Yukon Territory, the Northwest Territories, the North-West Mounted Police, may be leased for a term of twenty years and at an annual rental of \$100 per acre. Not more than 2,000 acres will be leased to one person.

Section 2. A lease must be made to the Dominion in the form of the instrument in which the lease is contained.

In every portion of the land must be described by section, or in less than section, and in unincorporated territory the tract applied for must be described.

Each application must be accompanied by a fee of \$10, which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

Every lease of coal mining rights which are not being operated shall include the District Agent of Dominion Lands with a sworn statement to that effect at least once in each year.

The lease will include the coal mining rights only, but the lessee may be permitted to mine any other minerals available surface rights may be considered property for the working of the mine at the rate of \$100 an acre.

For full information, application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. Cory,  
Deputy Minister of the Interior.

## SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 20, not reserved, may be homesteaded by any person who has been a citizen of the Dominion for at least six years, or by a family or any male over 18 years of age, to the extent of one-quarter section of the section, more or less.

Entry must be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the following conditions: (1) To reside on the land for six months residence upon and cultivation of the land in each year of the three years following the date of the entry. If the failure to do so is proved by the Minister of the Interior, the homesteader's rights shall be forfeited and the land shall be offered to the public.

(2) If the settler has his permanent residence upon the land, he must be a Canadian citizen or a resident of the Dominion of Canada at the time of the entry. Six months notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. Cory,  
Deputy Minister of the Interior.

## FALLS UNDER TRAIN, KILLED

HARVEY STEEVES MEETS SHOCK-ING DEATH VICTORIA DAY.

### BOTH LEGS CUT OFF

Was Attempting to Board Fast Moving Freight and Sprung Under Wheels. Ripped About Three Hours—Third Not Death in Family.

Harvey Steeves, nephew of the late Reuben Steeves who was drowned last fall while on a hunting expedition, met a shocking death Monday evening by being run over by a freight train in the Frank yards and having his limbs so terribly mangled that he died in a few hours.

The accident occurred a few minutes after 6 o'clock Monday evening. The local freight, westbound, was just pulling out of Frank when the young man who was walking along the track near the coal chutes took a sudden notion to go to Crows Nest and although the train was then running fast, he attempted to catch the ladder of one of the box cars. He succeeded in getting both one hand on the ladder with the result that he swung around the corner of the car and fell in front of the trucks of the one following.

Several persons who were near to the assistance of the young man and he was removed to Dr. Malcolmson's hospital and in the absence of Dr. Malcolmson, Doctors Snyder and Downing were summoned from Lillo and Hillcrest. Everything possible to save the life of the young man was done but unavailingly and death came to relieve his agony about 9 o'clock.

Harvey Steeves was a nephew of the late Reuben Steeves and was twenty-one years of age the second of last month. As stated, he was a nephew of the late Reuben Steeves and with his brother, Clifford, came to Frank about three years ago. He was a most likeable young man and the feeling of regret at his death will be felt by all who knew him. He was a brother, Clifford and an aunt, Mrs. Mary Steeves in Frank and a father, mother, two brothers and five sisters who reside at Berry's Mills, N. B. his native town.

This is the third death to occur in the Steeves family in Frank within two years under unlooked for and peculiarly sad circumstances. The first was that of Miss Eva, who died of meningitis while attending college at Edmonton in 1907, followed by the drowning of Reuben Steeves last fall. Coroner Phipps held an inquest Tuesday afternoon at which the evidence was in accord with the statement of facts here given and the jury returned a verdict of accidental death.

Funeral services were held yesterday afternoon at Knox church, the Rev. Sergeant and Murray officiating. Interment was in Blairmore cemetery.

## LEAGUE FOOTBALL NEWS

League football games were played Saturday and Monday between Coal Creek and Michel and Fernie and Hosmer. In the former Coal Creek was given the decision by a score of 3-2 but the game was protested and will played on the 31st. In the latter Fernie defeated Hosmer 2-1.

A meeting of the league was held at Fernie Saturday evening at which the draw was made for the games to be played for the Muiz cup. The result of the draw was that Hosmer plays Cowley at Hosmer; Coleman plays Michel at Coleman; Frank plays Coal Creek at Frank and Michel plays Fernie at Michel in the first round. The dates for these games will be set later.

The directors decided to confer upon the team which wins the season's championship, \$100 of the contribution of \$250 made by Thomas Coleman of Michel, for the purchase of medals and the balance to be held by the league for similar purposes in the future.

Frank will play at Michel Saturday.

## THE SHOW COMING AGAIN

Through the efforts of Manager Price of the Coleman opera house, the people of The Pass are to once more be afforded a theatrical treat by a return appearance at that play house of the San Francisco Opera company, which, on the occasion of its first visit last fall, gave the most thoroughly pleasing performance of any company that has ever visited the district.

Press comments from places the company has visited during its present tour, indicate the company to be fully as strong as before which is saying quite enough to insure a splendid performance while the opera to be given is "Florinda" which has become famous for more reasons than its operatic merit, not inconsiderable in itself. It was this opera which served as the vehicle for introducing to the stage, Evelyn Nesbitt, Nan Patterson and the others of the famous sextette who, because of their fatal gift of extraordinary beauty have of late years, in one way or another furnished columns of sensational newspaper matter. The elements of curiosity, an attractive play and a good company for a combination that will undoubtedly necessitate the hanging out of the standing room only sign when the company makes its second appearance a week from tonight, June 3rd. It will behoove those wishing to secure good seats to order them early by telephoning the Parks drugstore.

## EVERYBODY CELEBRATED

For the second time in eight years in this section of Alberta the 24th, now known as Victoria Day, was fine day for the celebration of the various celebrations planned for the observance of the day. In consequence the occasion was one of unqualified enjoyment for every one and a great many availed themselves of the opportunity to spend a day out town at some of the other places where celebrations were held. Some went to Fernie and others to Cranbrook but the greater number by far took in the sports at Cowley.

The program at Cowley could not be carried out as announced, through many of the events scheduled failed to fill, due no doubt to the repeated failures of past attempts to hold sports owing to bad weather but the crowd was there, the biggest ever, and all had a good time with such sports as there were and with the two dances in the evening. And as a good time for the visitors is always the measure of success of a celebration Cowley's essay may be said to have been very successful.

The principal events of the day were the baseball game between Frank and Cowley and the junior football matches between Frank, Lundbreck and Cowley, in both of which the silver came to Frank.

In the baseball event Frank succeeded in wresting a victory from the Cowley Invincibles. It was not a national league exhibition as the score of 18 to 16 indicates but there was just as much excitement over it and the crowd probably enjoyed it much better than they would a more scientific contest.

In the football, the Frank juniors who last year won the cup, repeated the performance by first defeating Cowley 4-0 and then winning from Lundbreck 2-0. The boys have to win the cup once more to entitle them to ownership.

Offices at the Cowley and Alberta hotels, both of which were crowded and afforded much enjoyment, concluded the day.

## SETTLEMENT HANGS FIRE

NO AGREEMENT YET REACHED RELATIVE TO COAL STRIKE.

### HIGH HOPES SATURDAY

Arbitrators Thought Had All Fixed but Another Strike Interposed—Some Think Will Settle Soon, Others That End is As Far Off as Ever.

No settlement of the coal strike has been reached and opinions vary as to what the outcome of the present attempt to arbitrate will be. Some persons affect to believe an agreement will be reached in a couple of days, in time to start work the first of the month while others are skeptical and are inclined to think the men will not yield the closed shop which would of course mean a long tie up.

High hopes were entertained by the members of the arbitration board Saturday and the word went out that a settlement had been effected. It was stated that the board had induced both sides to agree to accept an agreement it would draft, based on the men waiving the closed shop and the operators the discrimination clause. But when the sessions were resumed the first of the week another hitch occurred and now, according to the best information obtainable, a deadlock is on. No information is given up by either side but the impression as to the attitude of the men seems to be that they will decline to accept the proposal of the arbitrators.

While there is talk that a settlement is near there is nothing definite upon which to base such a belief and the outlook for a settlement of the difficulty does not seem encouraging.

## FIGHT IT OUT IN COURT

A special dispatch to the Associated Standard of May 15th says:

"With the filing this morning of the last maps of location by both the Chicago, Milwaukee & Puget Sound and Great Northern railroads, covering the final stretch of the North Fork route to the international boundary, the terrific struggle which has engaged the surveying crews of both roads for the past six weeks has abated and the scene of the contest will be shifted from the field to the courts in a few days.

"At 5 minutes past 9 o'clock" this morning the Milwaukee's attorney filed in the United States land office, their final map of definite location, covering the last six miles, and the news had scarcely reached the streets before the Great Northern agent passed in a bunch of similar maps to the clerk, but they were 50 minutes too late.

"From Coram clear to the Canadian boundary, a distance of nearly 50 miles, the Milwaukee has evidently beaten the Great Northern at every point with their survey, sometimes only by a few minutes, sometimes hours. For the last 10 miles of the route almost superhuman efforts were put forth by both sides. At times the Great Northern would be a few rods in the lead, but the Milwaukee would pass them.

"The lines, as shown by the maps, interlock and cross time and again, mainly following the west bank of the river. For the last three miles the lines follow practically the same course and intersect the boundary line at a common point about 700 ft. east of monument 281.

"More than a dozen different condemnation suits have emanated from dissonance in all of which the Milwaukee succeeded in securing first action.

"Owing to declarations of both sides to fight to a finish, it is probable that construction work will be deferred indefinitely, as nothing will be done in that direction until litigation is ended."

### AN INTERESTING REPORT.

The 1903 report of the Superintendent of Forestry for the Dominion, R. H. Campbell, lately issued gives much attention to the Dominion forest reserves, situated in Manitoba, Saskatchewan, Alberta and the "railway belt" in British Columbia. The largest of these, the Riding Mountain reserve, is most fully treated. During the year reported on 1907, the fire protective system on this reserve (along with the Duck Mountain and the Porcupine reserves) had been organized by the appointment of a chief ranger, who has assistant rangers. The timber survey of this reserve is now practically completed. The reserve also occupies an important place in regard to the water supply of the country to the east and south. An evidence of this is the granting to the Minnedosa Power Co., of Minnedosa, Man., of permission to erect a dam on Clear Lake, which is within the reserve, in order to control the waters of Little Saskatchewan and make them serviceable for the production of power. Another problem engaging the attention of the authorities is the protection of the game in the reserve. In the case of the Moose Mountain reserve, in southern Saskatchewan, the most important problem is that of the game. Another problem of the reserve is that of its use as a summer resort; the shore of Fish Lake is especially used in this way. The authorities now have under consideration the granting of sites for camping by lease or otherwise.

Opposite the town of Prince Albert on the north shore of the Saskatchewan river, a tract of land has been recommended to be set aside for a forest reserve. The irrigation convention, in session at Calgary in July 1907, passed a resolution asking that a forest reserve be created on the eastern slope of the Rocky mountains, for the sake of its beneficial effect on the conservation of the rainfall in that district.

The report gives in full the amended timber regulations adopted in December, 1907. These provide, in brief, that all timber is to be sold by public auction at the office of the timber agent for the district, after each berth had been surveyed and had been examined by a competent cruiser. Taking as a basis the sworn report submitted by the cruiser, as to the quantity and value of the timber, the Minister of the Interior then fixes an upset price for the berth.

Forty-seven fire rangers were employed during 1907 in patrolling the forest reserves and forested districts. Of these 21 were in the B. C. railway belt; seven on the eastern slope of the rocky mountains, from the International boundary north to the Saskatchewan river, five in the Edmonton district, seven in the Prince Albert district and two along the Athabasca river from Athabasca Landing to Lake Athabasca. In the Lesser Slave Lake district and also along the line of the C. N. R. from Edmonton to The Pass rangers were kept.

The report calls attention to the great risk of forest fires along the proposed line of the G. T. P. railway during its construction. Newspaper reports of wide spread forest fires during the spring of 1908 had not, however, been officially confirmed.

The need of adequate fire protection for the forests north of the Saskatchewan river, from Hudson Bay to the Rockies, is also pointed out. Irrigation now forms an important part of the work of the forestry branch. Among the subjects discussed under this head are the need of a hydrographic survey, the irrigation act, the first Canadian irrigation convention, and the duty of water and its determination.

Mr. Campbell points out how inadequate has been the work so far done in the way of hydrographic surveys of streams supplying the irrigation district, i.e., a determination of the amount of water that flows in the different streams at different seasons, the determination of sites for dams and reservoirs, and obtaining of much other data useful in controlling the flow of the streams so as to enable those in charge to control the water for irrigation, domestic water supply and other purposes, such as the operation of railways. A considerably increased expenditure on this line of work is, in Mr. Campbell's opinion, abundantly justified by the importance of these interests, especially in view of the rapid growth of the west. In this work Canada has much to learn from some of the western states.

"The principle of the law," writes Mr. Campbell, in speaking of the irrigation act, "is that the water is public property and that any rights to the use of it do not convey any property in it but are granted for beneficial use in connection with a specific location. If any larger right were permitted to exist, a right to water might be speculatively and not beneficially used. One person or company might get control of the water and have a monopoly which would place the owners of lands dependent on the stream at their mercy. The evidence of experience is against the unrestricted transfer of water rights and the proper policy seems to be to adhere in the main to the principle already established by the act of making the right use of the water appurtenant to the land."

Amendments made to the act during the year are noted, and suggestions from various bodies for its amendments are noted, with reasons for and against and the final disposition of the suggestions.

The branch during the year 1907, made 139 sales of land for reclamation by irrigation; these covered a total area of 62,532 acres. There were also pending sales to the Alberta railway and Irrigation Co. of 470,000 acres and to the Southern Alberta Land Co., 540,575.

To persons interested in the topic, the report is most interesting and instructive and to them we would commend its careful perusal.

### THE LAND FOR THE SETTLER.

It is very plain that Hon. Frank Oliver as Minister of the Interior intends holding to his policy of "the land for the settler." During the last session of the parliament he refused to give veteran scrip to the Fenian and other veterans and later when it was proposed to make a grant of lands to finance the Centennial Exposition at Winnipeg, Mr. Oliver refused to entertain the idea. He chose rather to keep the land for the actual settlers in spite of the strong influences to the contrary. The experience with the South African scrip showed clearly that the land grant resolved itself into a speculation in which the veterans derived the smallest benefit. They got their scrip but the great majority disposed of them for from two to four hundred dollars while the speculating purchasers got from seven to ten hundred. There ought to be some better way of rewarding the veterans without using them as the means of speculative exploitation of the public lands. When the Minister of the Interior kept to his policy he did something of which the great body of the people especially in the west approved.

## FAMOUS BAND AT FAIR

The famous Maynard Ladies band of New York is coming to Calgary for the Alberta provincial exhibition July 14 to 17th. This band, which is composed of 45 of the best lady musicians in the world, has up to the present played only in such cities as Paris, St. Petersburg, New York, Chicago and other large centers in Europe and the United States. It has thus occasioned considerable surprise that a musical organization of such merit should have been prevailed upon to travel such a distance, especially when it is impossible to fill all the engagements offered in the east; but it is understood that when the trip out to Alberta was suggested to Miss Augusta Dial, the leader of the band, she determined that she would see the west this summer, much to the disappointment of east-coasters who had counted on hearing the Maynard ladies band at Asbury Park, New Jersey and other big pleasure resorts, during their mid-summer vacations. The people who have listened to the band at the pavilion on the "Board Walk" at Asbury Park usually paid \$3.50 for a reserved seat. In Calgary it will cost but \$0.50, for a seat on the grand stand. "Augusta" Dial is popularly known as a thorough musician, having passed with high honors several examinations for the degree of bachelor of music. Miss Dial is very particular in choosing the members of the Maynard Band, and as a result of her painstaking efforts, she now has the pleasure of leading forty-five ladies who play better than most masculine-made-up bands.

This group of artists use the same kind of instruments as do male military bands. The band includes eight celebrated soloists of unusual musical ability. In addition to the regular selections several novelties are provided. The "Auril Chorus" from II Trovatore by Verdi is included among these. It is very spectacular. Six or eight of the Maynard girls are dressed as blacksmiths standing by as many anvils which are connected with electricity. When these are struck showers of sparks are thrown out, the effect being very pretty.

Another of the bands outstanding novelties is the selection called the "Locomotive Girl".

## Frank News in Brief

Alex Goyette, dealer in furniture and wall paper.

The Rev. Taylor is absent at Strathcona attending conference.

A baby girl was born Tuesday to the wife of Fred McLaren of McLaren's mill.

General Manager Muller of the coal company expects to make the first shipment of coal from the shaft to-day. Two cars will be shipped.

The C. P. R. has a crew of men at work in the slide blasting out rock to be used at different points along the line for protecting bridges etc.

The two barber shops of Frank have joined forces, the Barrows shop moving to the shop of J. Paraling. The combination affords one finely equipped institution.

WIN A \$5000 HORSE—A chance to win Forest Patch, sired by the famous Dan Patch. It costs you nothing. Find out all about it at the Crows Nest Pass Hardware Co. Call or write at once.

Mr. Chatfield who conducted the first jewelry store in The Pass at Blairmore in 1901 is returning to the district to again engage in business and will open a jewelry store in Frank in the Goyette block the first of the month.

Harvey Murphy has had the interior of the Cobley store remodelled to suit the convenience of the dry goods and clothing business. The store is now most tastefully arranged and presents a very attractive appearance.

The three Blairmore line kilns which are now all owned by the Rocky Mountain Cement company are in full operation under the direction of John Merino and the company is shipping a larger output than ever before.

J. W. Gresham's skill as a blacksmith was never better demonstrated than it is in a spire he has just made for the new Baptist church at Blairmore. It is a handsome piece of workmanship such as one would scarcely expect to see done in a small community.

For Sale—I am offering for sale a fine section of farming land, viz: Section 20, Township 9, Range 2, west 5 meridian, situated at Livingston, Alberta adjoining the Wilson ranch. Tenders for purchase of same will be received until June 30th 1909. Address, Mrs. J. W. Curry, Box 49, North Battleford, Sask.

Dr. Macleod made a business trip to Fernie Monday.

The six year old daughter of M. Ross of Blairmore died Sunday at the hospital from appendicitis.

Archie McLeod of Blairmore has been appointed a deputy sheriff and has opened an office in the Howard building.

Two more cases of scarlet fever developed during the week, the two children of Mr. O'Brien being the victims. The cases are mild.

Anton Patena lost a horse Sunday. The animal fell down a cut bank on Field Creek and was dead when found.

A car of machinery for the new Feltner brick plant at Blairmore arrived during the week. Mr. Feltner expects to have the plant running in about a month.

George Smith of Bellevue was before Magistrate Belcher yesterday on a charge of assault. He was fined \$10 and costs and placed under \$200 bond to keep the peace for six months.

An attempt was made to hold a wrestling match at School Hall Monday evening, the principals being Ole Olson and the "Cyclo Kid" but the attendance was so small that the match was called off.

The water in Lyon Creek at Blairmore took a sudden jump Monday evening and washed out a section of track just to the east of the bridge. A big crew of men worked all night making repairs. Traffic was held up several hours, both the regular passenger and the flyer being obliged to lay up at Blairmore over night.

Much inconvenience has been experienced since the water commenced to rise by the intake of the town water system filling up and cutting off the water supply. The coal company has a crew of men at work endeavoring to remedy the difficulty. Until the water is on again it behooves everybody to be especially careful about fire.

The board of license commissioners held the annual meetings to consider applications for renewals of liquor licenses at Pitcher Creek. Friday and Frank Saturday. All applications were granted except in the case of the Sanitarium which was only given a license for three months and notice served that if within that time the building of a new hotel is not begun, the license will be taken away.

A boy baby was born last night to the wife of the Rev. James Sergeant of Blairmore.

Messrs Gilroy and Rose, two new comers from Manitoba, are opening a barber shop in the Beebe building in Blairmore.

The three year old boy of Mike Kropanak had a thigh broken yesterday. The child was climbing into the milk wagon of the Crystal dairy when the team started and he was caught in the wheel.

Deer are quite plentiful in the hills this spring and the police, having heard reports of violations of the game law are laying plans to trap the violators. It will go hard with any that are caught.

The sudden rise of Lyon creek at Blairmore Monday evening, damaged the wagon bridge over the stream. Repairs have since been made and the banks are being cribbed between the railroad and the bridge to prevent any further trouble.

Miss Berry has so far recovered from her recent indisposition as to resume school Tuesday.

H. E. Lyon has recently imported two fine blooded dogs, one a New Foundland and the other a St. Bernard. They are exceptionally fine animals.

Sydney Bishop, while shingling on the new Baptist church at Blairmore, was quite painfully injured by falling from the roof to the ground one day this week.

Father Lalet is ill at Dr. Macleod's hospital.

The cozy little home of John Hogan, situated near the Westworth ranch close to Maple Leaf, was destroyed by fire Monday. Mr. and Mrs. Hogan were away from home and relatives who were staying at the house, are supposed to have left a lamp burning which exploded, causing the fire. The Hogans lost everything. The loss was only partly covered by insurance.

Mrs. Almond White, Neapolis, Alta., writes: "Received the Oxydonor and find it a source of great relief, although I have had it hardly a month.

The first night I slept and rested better than for weeks and my bowels have moved regularly every morning while I used the Oxydonor during the night.

My general health is greatly improved. For years I have been compelled to take a physic every day and been subject to severe headaches and nervousness. Until find them all disappearing and how thankful I am. My children say I look ten years younger, and I was just sixty-nine years old the 5th of May."

## Miners and Shippers of Bituminous coal.

The Company carries three grades of coal, screened, mine run and slack. The screened is unequalled for domestic or furnace use. We recommend the mine run and slack for steam purposes, and can guarantee it to be clean and give absolute satisfaction.
